TerryWhite Chemmart Expands Patient Solutions with New Weight Care Program in the myTWC App

TerryWhite Chemmart (TWC) has launched another innovative feature within the myTWC app to support patients on prescribed medical weight loss treatments: the TWC Weight Care Program.

Through the Weight Care Program, patients can seamlessly manage their medical weight loss journey directly from their smartphone, staying connected to their local pharmacist for expert guidance using chat. Key features include dose and script reminders, educational resources, motivational tools, tips for success, and milestone tracking, all designed to empower patients with the tools they need to succeed.

“We’re excited to bring weight management support to patients in a seamless, integrated way through our myTWC app,” said Brenton Hart, Chief Pharmacist at TerryWhite Chemmart. “This program connects patients with expert guidance from their TWC pharmacist and provides them with essential tools to stay motivated and see measurable progress, enhancing healthcare beyond the dispensary.”

The myTWC app has become a comprehensive health management hub for TWC patients, enabling prescription management, health services bookings, and access to their Rewards Plus points. The integrated eCommerce platform and multiple delivery options also simplifies shopping for health essentials, making the app an all-in-one solution for healthcare and pharmacy needs.

“The digital capabilities of the myTWC app are empowering pharmacists and enhancing patient adherence to their health plans,” added Mr Hart. “By offering practical tools and programs like Weight Care, we’re ensuring our pharmacies deliver the best in convenience and care.”

With myTWC, TerryWhite Chemmart is committed to making healthcare access simpler, more convenient, and effective across its pharmacy network.

About myTWC

The myTWC app has redefined patient interactions at TWC by creating a central hub for health management. With myTWC, patients can manage prescriptions efficiently, make bookings for health services, and easily access their Rewards Plus account and points balance. The app's integrated eCommerce platform also allows patients to shop for health essentials with ease, making it a comprehensive solution for their healthcare and pharmacy needs.
