RECALL

BioCeuticals ArmaForce®

(30s, 60s, 120s)

All batches not expired as of 8/10/2026

AUST L 340712

BioCeuticals, in agreement with the Therapeutic Goods Administration (TGA), is conducting a consumer-level recall of all batches of BioCeuticals ArmaForce® (30s, 60s, 120s). ArmaForce® is used to relieve symptoms of common cold, flu and mild upper respiratory tract infections. The product is being recalled because of the potential risk of rare but serious allergic reactions, including anaphylaxis.

If you have BioCeuticals ArmaForce® (30s, 60s, 120s), stop using it.

Return the affected product, opened or unopened, to the place of purchase for a refund. You do not need a receipt. Alternatively, contact BioCeuticals Customer Care on 1300 650 455 (Ext 4) in Australia, or at product.recall@bioceuticals.com.au to arrange a return and refund.

On 17 September 2026, following a review of its safety, the TGA removed *Andrographis paniculata* (Andrographis) from the list of ingredients permitted for use in listed medicines.

Anaphylaxis is the most severe type of allergic reaction and is a medical emergency. If you experience symptoms of suspected anaphylaxis, call 000 immediately. Anyone who is concerned about the use of this product should consult their doctor.

BioCeuticals sincerely regrets any inconvenience to its customers.
